Jeffrey D. Polisner

Diablo Water District's policy for contractors performing work on our water distribution system or on any of our property is as follows:

1. Contractor must be licensed and approved by the District's Engineer. A Contractor Experience Summary Form must be completed and submitted for review.
2. Insurance shall be provided as outlined in the Facilities Installation Agreement. Contractor is to provide certificates of insurance naming Diablo Water District and CDM Smith (District's Engineer) as an additional insured parties in addition to any other requirements listed in the Agreement.

District work performed will be in accordance with Diablo Water District Standard Specifications and Drawings. A copy of the standard specifications can be obtained from the District for a fee of \$50 plus mailing costs or it is available on our website, www.diablowater.org.
